UNCLASSIFIED

The night of Oct 11th we were going to have our Nav Brief for entering Aden at 1900 by POD at we were going to be at Nav Detail for exiting the Red Sea so the XO decided to move our Nav Brief forward to 1400ish. We had the Nav Brief then stationed the Nav Detail around 1500 – 1630, broke for dinner then restationed at 1800 until around 2100. I was supposed to have the 2200 – 0200 watch as Officer of the Deck, but after dinner the CO had told me he wanted me to sleep, our Nav Detail for entering Aden was going to be at approx 0545 and he felt, ship's safety wise I hadn't gotten enough sleep since the Suez Transit. After Nav Detail secured at 2100, I went to sleep till the next morning.
